## NOTICE

### CELEBRATION OF WORLD FOOD DAY '24

World Food Day

Dear Students,

We are excited to announce that the Department of Agricultural Sciences will celebrate World Food Day on October 16, 2024. This day aims to promote awareness of global food issues and encourage sustainable practices. Join us in celebrating World Food Day as we come together to raise awareness about global hunger and promote sustainable food systems for a healthier future!

On this World Food Day, let's take a moment to reflect on the importance of food security and sustainable practices in our world. This year's theme Right to Foods for a better life and a better future reminds us that we all have a role to play in creating a future where everyone has access to nutritious food.

Food is more than just sustenance – it connects cultures, fuels our bodies and minds, and shapes our communities. Yet, millions still struggle with hunger, while food wastage continues to be a global issue. The day is a reminder to be more mindful of our choices and to support initiatives that promote sustainability, reduce food waste, and ensure that no one is left behind.

#### EVENT DETAILS

Attention all students!

Here's your chance to shine and make the most of your talent. Participate in this thrilling event, put your best foot forward, and stand a chance to win exciting prizes! Whether you're looking to challenge yourself, gain recognition, or just have fun, this is the perfect platform. Don't let this opportunity pass you by—JOIN IN, COMPETE, AND TAKE HOME THE REWARDS!
